GENERAL SHELTERS RECEIVES SAFETY ACHIEVEMENT RECOGNITION

OSHA® certifies that General Shelters meets the requirements of the Consultation Safety and Health Achievement Recognition (SHARP)

Dallas, Texas, May 17, 2017– The United States Department of Labor Occupational Safety and Health Administration (OSHA®) certified that General Shelters of Texas, LTD located at 1639 Highway 87 North, Center, Texas, meets the requirements of the Consultation Safety and Health Achievement Recognition Program (SHARP) and participation is hereby approved for the term 4/13/2017 to 4/13/2018.

“This award would not have happened without the dedication of everyone who works here. From the top down this team is committed to make sure General Shelters has a safe work environment. Although this award removes our worksite from routine inspections for the term ending next April, we must remain vigilant to insure the safety of everyone.” David Koonce

A safe day is a day that upon it's end everyone goes home in the same shape and health as when they got here that morning. It's our desire that this is repeated each and every day. This safe day doesn't happen on its own. It requires everyone doing their part to insure we have the safest workplace possible.
